

Alex Morgan

Software Engineer | alex.morgan@example.com | (555) 010-2026

SUMMARY

Software Engineer with six years of experience building reliable developer platforms and customer-facing web applications.

EXPERIENCE

Northstar Systems - Senior Software Engineer - 2023 to Present

Led a TypeScript and GraphQL platform migration used by 18 product teams; reduced deployment failures by 31 percent and added AWS and Kubernetes observability.

Beacon Labs - Software Engineer - 2020 to 2023

Built Python services backed by PostgreSQL and shortened batch-processing time from 42 minutes to 11 minutes.

PROJECTS

Release Reliability Dashboard - Created an incident and release-health dashboard used during weekly production reviews.

SKILLS

Python, TypeScript, AWS, Kubernetes, PostgreSQL, GraphQL

EDUCATION

University of Waterloo - BAsC Computer Engineering - 2020
